

## Jaguar XJ6 Radiator Metal Fan Blade

Jaguar XJ6 Series 3 originally came with a plastic radiator cooling fan. This fan had multiple plastic blades that failed over time. Cracks were common place on these fan blades severely affecting the cooling system. Motorcars LTD now sales a metal replacement fan. Giving you a more durable option to replace your faulty fan blade.

### Product Description

This is an aftermarket 6 bladed metal replacement Fan. This fan moves a greater volume of air than the original fan greatly improving your cooling system.

### Features & Benefits

- Moves a greater volume of air
- More durable than the original plastic fan
- Less expensive than the original plastic fan
- Easy for the DIY to install
- In stock and ready for fast shipment

### Part# & Application

EAC3266M - XJ6 Series 3 1982-1987: Metal Replacment Fan
