

Warranties

New and Remanufactured Parts Warranties

New and Remanufactured parts carry a 12 month warranty from invoice date with a "repair or replace" warranty - at the option of the Company.

Extended warranties and labor warranties may be purchased separately for an additional charge on selected remanufactured and salvaged parts. Please contact your salesperson for more information.

In the event of a part's failure, the Company specifically denies any liability for the damage to associated parts, consumables or the labor to replace such defective parts. No liability beyond replacement of goods is accepted or implied. No labor warranty expressed or implied.

Salvage (Used) Parts Warranties

Used parts can be an affordable option but are not always the best choice in certain circumstances. Please make sure you understand what you're buying when you purchase Salvage (Used) parts.

Used parts carry a 99 day warranty from invoice date with a "repair or replace" warranty at the option of the Company.

Extended warranties and labor warranties may be purchased separately for an additional charge on selected remanufactured and salvaged parts. Please contact your salesperson for more information.

In the event of a part's failure, the Company specifically denies any liability for the damage to associated parts, consumables or the labor to replace such defective parts. No liability beyond replacement of goods is accepted or implied. No labor warranty expressed or implied.

Only in the instance that the Company cannot repair or replace the defective Salvage (Used) part will a warranty result in a refund.

No returns on used parts.
