

## Re-manufactured Jaguar XK8 Upper Shock Mount

Black Dog Manufacturing, a division of Motorcars Ltd, offers a Upper Shock Mount upgrade, re-manufactured using polyurethane bushings. Our Jaguar Upper Shock Mounts are exact replacements for the factory mounts and includes a 1 year 12,000 mile warranty.

The Jaguar XK8's factory upper shock mount bushings are prone to premature failure because foam rubber does not stand up well to heat or pressure and degrades over time, causing general degradation in suspension stability and unwanted vibration and clatter.

Having seen a number of XK8's come through our shops with worn out factory upper shock bushings, we decided to address the problem ourselves. Our Jaguar Upper Shock Mount replaces the stock "spongy" bushings with higher-quality, longer lasting polyurethane bushings. This is an upgrade to the stock unit.

### Features

- This is an **upgrade**
- Contains polyurethane bushings
- Easy to install - just remove and replace
- Fully Tested - means you can buy with confidence
- In stock ready to ship

### Product Description

Each Jaguar XK8 Upper Shock Mount includes: polyurethane bushings, that will increase the life of the mount and give you a longer lasting better ride.

### Part# & Application

**MJA2170BD/R** - XK8 1997-2006: *Front Upper Assembly*
