

## Re-manufactured Jaguar XJ8 Upper Shock Mount

Black Dog Manufacturing, a division of Motorcars Ltd, offers a Upper Shock Mount upgrade re-manufactured using polyurethane bushings. Our Jaguar Upper Shock Mounts are exact replacements for the factory mounts and includes a 1 year 12,000 mile warranty.

The Jaguar XJ8's factory upper shock mount bushings are prone to premature failure because foam rubber does not stand up well to heat or pressure and degrades over time, causing general degradation in suspension stability and unwanted vibration and clatter.

We disassemble the upper shock mount and replace all the stock "spongy" bushings with higher-quality, longer lasting polyurethane bushings. We then re-assemble the mount using the factory brackets. Our end result is a upper shock mount that is a upgrade from the factory unit. This is a much more affordable solution than the pricey new mount from the dealer the factory solution is now a thing of the past.

### Features

- Better solution than the pricey new mount
- Longer lasting better ride
- This is an upgrade - contains polyurethane bushings
- Easy to install - just remove and replace
- Fully Tested - means you can buy with confidence
- In stock ready to ship
